Ban of FDC Drugs
Chavan Shri Ashok Shankarrao;Kothapalli Smt. Geetha

**Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:**

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) whether the Government has tested more than 1200 Fixed Dose Combination (FDC) drugs and prohibited the manufacture, sale and distribution of about 350 drugs, if so, the details of such drugs/ medicines and the reasons therefor;

(b) whether the pharma companies have opposed the ban, if so, the reasons therefor and the response of the Government thereto;

(c) whether the Government has taken note of side effects of such banned FDC drugs/medicines and complaints of smuggling of contraband drugs, if so, the details thereof; and

(d) the corrective action taken by the Government to ensure safety of consumers and allow manufacture, sale and distribution of safe medicines having therapeutic justification?

## Answer

THE MINISTER OF HEALTH AND FAMILY WELFARE
(SHRI JAGAT PRAKASH NADDA)

(a) to (d): A statement is laid on the Table of the House

STATEMENT REFERRED TO IN REPLY TO LOK SABHA
STARRED QUESTION NO. 82* FOR 29TH APRIL, 2016

(a) The Government vide Gazette Notifications S.O. Nos. 705(E) to 1048(E) dated 10.03.2016 prohibited the manufacture for sale, sale and distribution for human use 344 FDCs with immediate effect in public interest as these FDCs were likely to involve risk to human beings and safer alternatives were available. The list of FDCs prohibited is Annexed.
(b) The Pharma companies have opposed prohibition inter alia on the following procedural grounds :
(i). Government did not consult Drugs Technical Advisory Board (DTAB)/ Drugs Consultative Committee (DCC).
(ii). Opportunity was not given to the manufacturers.
(iii). The manufacturers were not heard after they replied to show cause notices.
(iv). The notification is vague and merely says there is no therapeutic justification and other safer alternatives are available. It does not specify which are those alternatives.
(v). The products are in the market for a long time and there are no adverse reaction, etc.
(vi). The manufacturers are having some kind of licence from State Licensing Authority before September, 1988 or are having some kind of NOC/approval from the Drugs Controller General (India) [DCG(I)].
(vii). Similar products are approved by DCG(I).
(viii). Government ban will make the stockists/ retailers, etc. liable for prosecution under section 18.
(ix). The petitioners are having valid licenses from State Licensing Authorities.

In the context of the foregoing, it needs to be noted that Fixed Dose Combinations (FDCs) containing drugs combined together for the first time are treated as 'New Drugs'. These, therefore, require permission from the DCG(I) before these could be licensed by the State Licensing Authorities (SLAs) for manufacture for sale in the country. Many SLAs had, despite not having the authority to grant licences for new FDCs, continued to grant licences without approval of the DCG(I). In order to address this issue, the Department of Health and Family Welfare also issued statutory directions to the State/Union Territory Governments to instruct their respective drugs licensing authorities to refrain from granting such licenses. However, the practice was still not discontinued by some SLAs. The matter had also been considered by the Standing Committee of Parliament which had observed that Section 26A of the Drugs and Cosmetics Act, 1940 is adequate to deal with the problem of irrational and/or FDCs not cleared by CDSCO. Though, the licenses issued/obtained were without jurisdiction and therefore not legal, keeping in view the public health and safety concerns, on the direction of the Government, CDSCO on 15.01.2013, requested the State Regulators to ask the concerned manufacturers in their States to prove the safety and efficacy of such FDCs which had been licensed by SLAs prior to 01.10.2012 without approval of DCG(I) before the office of DCG(I) within a period of 18 months. It was informed that in the event of failure to prove safety and efficacy, such FDCs would be considered for being prohibited for manufacture and marketing in the country. This notice was also uploaded on the official website of CDSCO as an information and for necessary action. Subsequent to it, CDSCO also issued a letter dated 05.07.2013 to the State Drug Controllers asking the manufacturers to file applications as per the procedure defined in the letter for proving the safety and efficacy of these FDCs. In reply to above letter, CDSCO received approximately 6320 applications from the manufacturers till 14th July 2014. Keeping in view the fact that rationality of such drugs had not been proved, in the larger public interest, and to examine these applications in a timely manner, the Ministry constituted a Committee under the Chairmanship of Prof.

C. K. Kokate, Vice-Chancellor, KLE University, Belgaum, Karnataka on 16.09.2014.
The Chairman of the Committee along with the members presented the report before the Ministry on 04.03.2015 wherein the Committee was requested to further examine and elaborate the scientific reasons for each FDC considered as Irrational by the Committee and submit the report accordingly. The Committee held a large number of FDCs to be rational and these were allowed to be manufactured/marketed. Further, meetings of the Committee took place on 07.04.2015 and 08.04.2015 and Committee gave scientific reasons in respect of each FDC/s held to be irrational. Thereafter, the final report of the Committee was submitted to the Ministry on 16.4.2015.
After examination of the recommendations of the Committee in case of FDCs declared irrational, show cause notices were issued and opportunity was again afforded to the applicants to respond within 30 days. However, on the request of the manufacturers, further extension of 90 days was granted for submitting their replies. The replies received were thereafter examined by the Expert Committee and further recommendations were given on 10.02.2016 after thorough examination of all replies. The experts in relevant areas also assisted the Committee in the evaluation process.
The above findings of the Expert Committee were inter alia based on various parameters such as patient safety, drug toxicity/adverse effect, misuse of drug/prescription error, abuse potential, pharmacokinetic and pharmacodynamic interaction/compatibility, dosage compatibilities of FDCs vis-Ã -vis that of single ingredients, issue of antimicrobial drug resistance, latest standard treatment guidelines (STG), risk/benefit ratio, patient compliance, international status, etc. The matter was, thereafter, further examined by the Government and the FDCs found to be irrational were prohibited. Thus, the Expert Committee has carried out an elaborate exercise based on contemporary scientific knowledge before finalising its recommendations. Adequate opportunity has been provided to the manufacturers to place their position before the Committee and the Government.

(c) All facts related to these FDCs were duly considered by the Government before taking a decision.

(d) While, the FDCs have been prohibited, a large number of cases have been filed by the Pharmaceutical Manufacturers in Delhi, Chennai, Himachal Pradesh and Karnatka. Delhi and Karnatka High Courts have granted stay in cases filed in these courts and the matter is currently sub-judice.
